Staff has worked with Dynamic Campus to develop an amendment to the contract to proceed with the remaining phase of the proposed services. The amendment will be for the remaining implementation and outsourcing of the Enterprise Resource Planning (ERP) software, business intelligence solutions, database administration, system administration, network management, Voice Over IP (VOIP) services, user support services, web services & academic support services.

Mr. Lewis stated that as part of the College’s strategic planning process, TSC seeks to be a leader in innovative solutions by engaging in the use of current technologies, including digital solutions, e-books, and other electronic solutions. The College is focusing on cost effective solutions that meet the educational needs of students, faculty and staff by providing online learning-based opportunities. With the College’s goal to becoming functionally independent by Fall 2013, TSC will need to have all solutions and instructional materials developed and available for students and faculty to support this timeline.

Mr. Lewis reported that TSC requested proposals from qualified companies to provide textbooks and instructional materials for the programs and courses of the College. The Request for Proposals (RFP) called for a list of general requirements and qualifications including proposed services to TSC, project team and management expertise, and project execution.

Pathway to Completing the Transition Process

Presented by Dr. Lily F. Tercero
Board of Trustees Meeting
October 18, 2012

In 1991, Texas Southmost College entered into a contractual arrangement with the UT System and the University of Texas at Brownsville, thereby establishing the UTB/TSC Partnership.

Under this contractual arrangement, UTB agreed to deliver the educational courses, programs and services which previously had been offered by TSC since its establishment in 1926.

In turn, TSC began transferring to UTB the tuition and fees collected and state appropriations relating to those courses/programs/services previously offered by TSC, as payment for fulfilling the contractual requirements.

Historical Overview
Historical Overview

- At this time, both entities are moving toward becoming separately accredited institutions by fall of 2015. A UT System Transition Team and a TSC Transition Team are overseeing the completion of the termination of the agreement.
- Texas Southmost College will become independently operational in the fall of 2013. However, it is important to note that both entities remain accredited under the UTB/TSC Partnership until separate accreditation is achieved by both institutions.

Major Tasks Underway

- Each institution is in the process of separately redefining its own:
  - Functions
  - Processes
  - Workforce
  - Organizational Framework
- Interim operating agreements will need to be finalized to address funding and facilities issues associated with the transfer of services and programs from UTB to TSC. If it is agreed that some services will be shared for a specified period of time, it will be reflected in these agreements.
- Unique processes will need to be designed for services requiring continuation of “shared” obligations. For example, Financial Aid must continue to be offered through the existing Partnership “FICE/OPE-ID,” until both entities become separately accredited.
Methodology

- Given the enormity of this task, the transition process at the campus-level begin by identifying functions that will be maintained separately by both institutions in the future.
- The first functional areas to undergo the transition process are as follows:
  - Admissions, Advising, Registration, Other Student Services
  - Information Technology
- Key items to be addressed for each of these functional areas include:
  - Facility/Space
  - Furniture/Equipment
  - Personnel
  - Funding/Agreement Revisions
- Both Transition Teams have appointed members to a Transition Task Force to assist with the completion of this phase of the transition.
Campus-Level Tasks

- Assist with the design of office space to optimize services for TSC and UTB students.
- Identify opportunities and challenges relating to the disintegration/restructuring of services.
- Develop plans of action defining how students will be served.
