

**Computer - Aided Drafting Technology
Certificate of Proficiency - Level One**

Texas Southmost College
Science Technology, Engineering & Mathematics Division

Computer-Aided Drafting (CAD) drafters produce detailed drawings with exact dimensions and specifications. They translate ideas into drawings and are an integral link between an idea and the finished product. CAD students will use plans, assembly drawings, and maps from notes and sketches. Upon completion of the program, the students will be able to produce correct drawings manually or with CAD or complete drafting assignments with minimum supervision, and communicate effectively in order to work in drafting team assignments. Employment is available in the Architectural Engineering Construction (AEC) and Manufacturing areas.
