

Commercial Roofing Program Certificate of Completion

Texas Southmost College
Workforce Training and Continuing Education

This pre-apprentice commercial roofing training program consists of a combination of classroom and hands-on training covering safety, tear off and set up procedures, application of EDPM and TPO roofing fabrics, built up Bitumen roofing, wood blocking and flashing techniques and roof calculations and measurements. All training includes post assessments to track students understanding of the application process. After completion of the course each student will receive a job offer from a major roofing Industry Partner.
