

## Industrial Mechanics and Maintenance Technology Associate of Applied Science

Texas Southmost College  
Division of Science, Technology, Engineering and  
Mathematics

The Associate of Applied Science in Industrial Mechanics and Maintenance Technology (IMMT) program is designed for students who seek jobs in industrial maintenance in a variety of industry sectors. The program provides the opportunity to develop skills in many areas including electrical, troubleshooting, maintenance planning, programmable logic control systems, blueprint reading, and welding. Employment opportunities include industrial machinery mechanics, industrial maintenance technicians, millwrights, and wind turbine service technicians.
