

**Architecture
Associate of Science**

Division of Science Technology,
Engineering & Mathematics

Students who graduate from the Architecture Program with an Associate of Science in Architecture can transfer to any of the major architectural schools in Texas and/or neighboring states to continue their education toward a Bachelor's of Science and Master's in Architecture. Meanwhile, if a student chooses to work after graduation, he or she can work in an architectural firm where he or she may assist in design, build models, or prepare construction drawings.

However, given the fact that architecture is a highly competitive profession and licensing requirements include a professional degree in architecture, students are strongly recommended to pursue a professional degree as soon as they complete their Associate's degree. The architecture program provides assistance for students throughout the transfer process.

FIRST YEAR - FALL SEMESTER	CREDIT HOURS
ARCH 1301+ Architectural History I.....	3
ARCH 1303+ Architectural Design I.....	3
ARCH 1307+ Architectural Graphics I.....	3
