

**Industrial Scaffolding Committee Basic Access Program
Certificate of Completion**

Texas Southmost College
Workforce Training and Continuing Education

The Industrial Scaffolding Committee (ISC) Basic Access Program is a non-credit, 80-hour training program that prepares students for the ISC certification examination. During the two-week program, students identify, inspect, erect, dismantle, rack, and stack the most common industrial scaffolding systems including the Cup Lock, Pin Lock, Excel, and Safeway systems. Upon mastery of the course knowledge, skills, and abilities, students will sit for the ISC certification, consisting of a knowledge-based assessment and a performance-based skills assessment
