### Program Student Learning Outcomes

Program Student Learning Outcomes (PSLO) are statements that specify what students will know, be able to do or be able to demonstrate when they have completed the program.

1. Graduates from the program can assess and apply security measures to protect computers and network systems. In addition, they can monitor and maintain security devices and systems.
2. Graduates from this program will earn nationally recognized industry credentials (i.e., CompTIA and Certified Ethical Hacker).

\*Grade of “C” or better is required for graduation.

†Students may take any course within this category of the TSC General Education Core Curriculum.

This information is provided as an example only. You will develop a personalized plan with your Success Coach and faculty advisor/mentor that reflects your goals and interests. You are required to meet with an advisor each semester to ensure you are on track for graduation. This document does not contain all the information you need to stay on track for graduation.
