Program Student Learning Outcomes

Program Student Learning Outcomes (PSLO) are statements that specify what students will know, be able to do or be able to demonstrate when they have completed the program.

1. Graduates of the TSC Radiologic Technology Program will demonstrate clinical competence as an entry level radiographer.
2. Graduates of the program will demonstrate problem-solving and critical-thinking skills.
3. Graduates of the program will demonstrate and comply with the legal and ethical responsibilities regarding patient care and professional development consistent with employer expectations.

This information is provided as an example only. You will develop a personalized plan with your Success Coach and faculty advisor/mentor that reflects your goals and interests. You are required to meet with an advisor each semester to ensure you are on track for graduation. This document does not contain all the information you need to stay on track for graduation.

*Grade of "C" or better is required for graduation.

†Students may take any course within this category of the TSC General Education Core Curriculum.
