TSC's First Week of Registration is a Success!

The first week of registration at Texas Southmost College was filled with excitement and students! On the first day, many students arrived well in advance of TSC's scheduled 8 a.m. opening. The first student was so excited to enroll at TSC that he arrived at 4 a.m. that Monday morning and two others had been waiting since 6 a.m.

The first three students that came through the TSC registration doors were pleasantly surprised when they each received a \$250 scholarship. These scholarships were made possible through the generous contribution of an anonymous donor. All students enrolling on the first day of registration also received complementary TSC t-shirts.

Due to the Board of Trustees' decision to lower tuition and fees, students who enroll full-time at TSC for the coming fall semester will pay at least a third less as compared to attending the University of Texas at Brownsville. As a result, savings for such students will amount to more than \$1,000 per semester!

TSC's newly renovated One-stop Student Services Center is also making it much easier for students to enroll in classes. Students can complete the registration process at one location, instead of having to go from building to building throughout the campus. Newly hired TSC staff are providing a student-focused, hands-on approach to service at every step of the registration process.

By Friday, May 24th, over 500 students were enrolled at TSC for fall semester courses! Texas Southmost College is back and is well on its way to the exciting opening by the fall of 2013!
