

**Construction Laborer- Field Safety
Occupational Skills Award**

Texas Southmost College
Workforce Training and Continuing Education

Students will learn safety industry standard requirements and best safety practices to foster safety awareness in the workplace. This training will prepare individuals for entry-level positions on project sites and will provide foundational knowledge in safety, hand power tools, construction math, materials handling, construction drawings, and build employability skills. Students will have the opportunity to earn a Forklift Certification License, OSHA 10, NCCER Core, and NCCER Field Safety Training Completion.
